

The Velveteen Rabbit Song Lyrics

Christmas Has Arrived

Bells are ringing
Children waking early this morning
Carol singing,
Christmas has arrived this morning

Christmas has arrived this morning...

Presents lying
Underneath the tree this morning
Peeking, prying
Lets open them it's Christmas morning

Christmas has arrived this morning...

Lights are twinkling,
Star atop the tree this morning,
Is it snowing?
Rushing to the window this morning...

Christmas has arrived this morning...

There'll be chestnuts roasting on an open fire,
There'll be angels singing, can you hear the choir,
There'll be Santa baby hurrying down the chimney
We'll be rockin' around the Christmas tree...

Hobby's song

I've been here,
For many a year
I've seen toys, they come and they go
I may not be the prettiest toy in the box,
But if there's one thing that I know...

You're
Loved just as you are, loved just as you are,
You could be shiny, fresh or new,
You could have one eye all askew,
You're loved just as you are, loved just as you are,
You could be orange pink or blue,
You could just need a good shampoo,
But just be the real you,

I may be, an old hobby horse,
Got no hair... I don't give rides no more,
But I'm proud to be here, all dusty and old,
Cos I am really really loved, of that I'm sure

Loved just as you are, loved just as you are,
You could be shiny, fresh or new,
You could have a few missing screws
You're loved just as you are, loved just as you are,
You could be orange pink or blue,
You could have an old dodgy tattoo
But just be the real you,

My ears are long,
My fur is soft and flat,
I am here... to stay and that is that
I don't need to flash, don't need a bell to ring,
I'll be really really loved, now let's all sing:

We're loved just as we are, loved just as we are,
So I'll be the real me, and you be the real you,

To Be Real

Oh how it might feel, to be real... (x2)

To be cuddled and snuggled and squeezed and squashed,

To be told all their secrets, to never be lost

Oh how it might feel, to be real.

Oh how it might feel, to be real... (x2)

To dry their tears when they're feeling scared,

All alone and tucked up in bed,

Oh how it might feel, to be real.

One day (x3)

I'll be real... (x2)

I don't care.... bout being old and threadbare

I don't care, if I end up grey with one eye...

Oh how it might feel, to be real (x2)

Even when they're older, all big and grown,

To be given to babies of their own...

Oh how it might feel, to be real.

Friends Forever

(Can you go) Up up up,
And down, down down,
Shake shake shake
Then round and round,
Up up up,
And down, down down,
Shake shake shake,
Then to the ground

Reading by torchlight
Digging for treasure
We're doctors and nurses,
Making everyone better,
This bed is an aeroplane, and now we're flying through the clouds,
Having adventures, we're friends forever (x2)

Climbing a mountain,
Digging out tunnels
Building a tower,
Then making it tumble,
This bed is the ocean deep, and now we're on a pirate ship (Ahoy!)
Having adventures, we're friends forever (x2)

When you're well

When you're well, we'll do all the things we planned to,
Anything you want to, when you're well
Gathering sticks, from the bottom of the garden,
Playing knights and dragons, when you're well
When you're well, when you're well,
Go to sleep, you'll feel better in the morning...

When you're well, we'll do all the things we planned to,
Anything you want to, when you're well
Making picnics and everyone's invited
Splashing at the seaside
When you're well
When you're well, when you're well,
Go to sleep, you'll feel better in the morning...

When you're well, we'll do all the things we planned to,
Anything you want to, when you're well
When you're well, when you're well,
Go to sleep, you'll feel better in the morning...

When you're well (reprise)

Now you're well, you'll do all the things we planned to,
Anything you want to... but without me....
Gathering sticks, from the bottom of the garden,
Playing knights and dragons... without me
Making picnics and everyone's invited
Splashing at the seaside... without me
Now you're well, now you're well,
Goodbye my friend,
I won't see you in the morning...

The Bunny song

I hop in the morning, I hop at first light,
Hop in the noontime, and then hop at night,
this way and that way, just bouncing about,
Here with my friends,
Just look at me now,

Hop, hop, hop, hop (hop hop hop) (x4)

These are my whiskers, just look how they twitch,
these are my hind legs, I use them to itch,
sniffing and snuffing, and scampering about,
Here with my friends,
Just look at me now!

Sniff sniff sniff sniff (sniff sniff sniff) (x4)

These are my front teeth, just look how they munch,
Green grass is my favourite to nibble for lunch,
Chewing and nibbling away till sundown,
Here with my friends,
Just look at me now

Nibble nibble nibble nibble (nibble nibble nibble) (x4)

Sniff sniff sniff sniff (sniff sniff sniff) (x4)

Hop, hop, hop, hop (hop hop hop) (x4)
